A Guide to Choosing Homeschool Curriculum

When choosing curriculum, it is often helpful to sort through all of the reasons you are considering it, as well as the reasons you may want to pass.

The process is simple. Simply check the boxes next to the features of the curriculum that apply to your homeschool.

How you evaluate the results is up to you. There's no magic formula here. This is simply an evaluation tool to help you look at all of the important steps of choosing curriculum.

- Does this curriculum align with our worldview?
- Does this cost of this curriculum fit my homeschool budget?
- If it outside our budget, is the value to our homeschool worth exceeding our budget?
- Can I live without regret if this curriculum does not work for us and I have to ditch it?
- Can I use this curriculum with more than one student at a time?
- Is this curriculum user-friendly?
- Will this curriculum enable me to use my teaching hours wisely?
- Does this curriculum mesh well with our usual homeschool methods?
- Will this curriculum will work well with the learning style of my students?
- Is this curriculum consumable?
- Does this curriculum allow for photocopying within our family?
- Do I have other children coming up who will be able to use this curriculum?
- Do I know anyone who has used this curriculum successfully?
- Have I read any reviews on this curriculum?
